

SPARC

Strengthening Partnerships to Advance Sexual and Reproductive Health and Rights of Women and Adolescents in Cabo Delgado, Mozambique

AGA KHAN FOUNDATION
CANADA

In partnership with

Canada

SPARC aims to improve the sexual and reproductive health and rights (SRHR) of some of the most vulnerable women and adolescent girls in six districts of Cabo Delgado province in Mozambique: Mueda, Muidumbe, Nangade, Namuno, Balama, and Montepuez.

Outcomes¹

Indicator	Disaggregation	Baseline	Year 4 Results
% of women of reproductive age who have access to modern family planning methods	N/A	31.6%	N/A ²
% of births attended by skilled health personnel	N/A	48.9%	N/A
% of target health facilities that use gender-sensitive HMIS data to inform planning	N/A	53%	100%
# of women, men and adolescents accessing SRH services through outreach services	Total	N/A³	394,209
	Female	N/A	308,041
	Male	N/A	86,168

¹ The list of outcome indicators is not exhaustive. Standard indicators and/or those with data available have been shared. The full logic model with the ultimate, intermediate and immediate outcome level results is available upon request.

Reach

Reporting Period	Gender	Primary stakeholders ⁴	Intermediaries ⁵	Total Reach	
Y4 (April 2022 – March 2023)	Mozambique	Women, girls	106,014	1522	107,536
		Men, boys	29,865	999	30,864
		Total	135,879	2521	138,400
	Canada ⁶	Women, girls	0	220,918	220,918
		Men, boys	0	220,918	220,918
		Non-binary	0	4452	4452
		Total	0	446,288	446,288
Cumulative Reach (to March 2023)	Mozambique	Women, girls	308,041	4929	312,970
		Men, boys	86,168	4393	90,561
		Total	394,209	9350	403,559
	Canada	Women, girls	0	237,774	237,774
		Men, boys	0	237,129	237,129
		Non-binary	0	4452	4452
		Total	0	480,644	480,644

Outputs

Indicator	Project Targets	Year 4 Results	Cumulative Results
# of health facilities provided with equipment and supplies, including emergency contraceptives, for basic and comprehensive emergency obstetric and newborn care and youth/adolescent friendly services	14	14	14
# of cell phones and transport systems (motorcycle and bicycle ambulances) procured and distributed	Cell phones: 40 Bicycle ambulance: 40 Motorcycle ambulance: 15	Cell phones: 40 Bicycle ambulance: 40 Motorcycle ambulance: 14	Cell phones: 40 Bicycle ambulance: 40 Motorcycle ambulance: 15
# of home visits to educate families on SRHR behaviours and practices, particularly adolescents and women	125,857	26,783	83,536
# of monthly mobile clinics and quarterly health fairs held	1195	212	556

² The first two indicators in this table are ultimate/intermediate outcome indicators. Indicator progress data will be available at endline.

³ Data for this indicator was not required at baseline, as the indicator is directly linked to implementation activities.

⁴ The individuals intended to experience an improvement in well-being as the ultimate outcome of the program. For instance, this might include students in an education program, or women and girls in a women's empowerment program.

⁵ Individuals that are not the primary stakeholders of the project, but that will experience a change in capacity and behaviour, practices or performance which will enable them to contribute to the program's efforts to improve wellbeing of primary stakeholders. For example, this might include teachers or education officials in an education program, or traditional community leaders in a women's empowerment program.

⁶ The SPARC program engages the Canadian public by sharing information related to SRHR, programming, and results through print and digital media and in-person activities. The figures in this table refers to the number of Canadians reached through digital engagements.
